

AREA BEING GEOPHYSICALLY SURVEYED -- LIME HILLS-TYONEK QUADS.

UPCOMING DATA RELEASES:

Most of the area in the Tyonek quadrangle will be released in early 2008 in a 'preliminary final' version.

Data for the remaining area and a final (merged) version of the Tyonek area data should be released in late spring/early summer 2008.

The figure shows where aeromagnetic and electromagnetic data are being acquired for DGGs as part of the Alaska Airborne Geophysical / Geological Mineral Inventory (AGGMI) Program for 2007 and 2008. Some boundary changes may be made to the outline shown. Check this link for updates. Funding was provided by the Alaska State Legislature with a supplemental contribution from AngloAmerican Exploration (USA) Inc.
