ALASKA DIVISION OF GEOLOGICAL & GEOPHYSICAL SURVEYS
IN COOPERATION WITH ALASKA DIVISION OF MINING

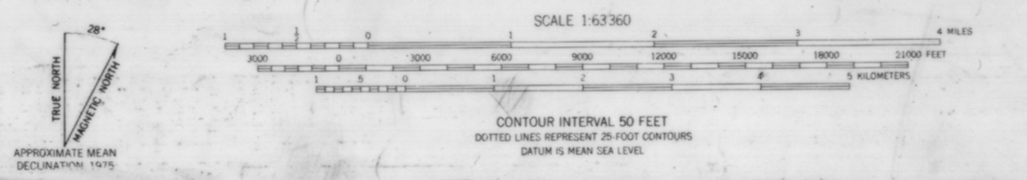
Base from U.S. Geological Survey Fairbanks D-1 (1949, revised 1975), D-2 (1954, revised 1975), and D-3 (1950, revised 1972) Quadrangles, Alaska.

The sources of mining-claim information used in this compilation are from Alaska Division of Mining (DOM) records. The claim locations are approximate and represent data available at DOM. This map is a graphical representation of state and federal mining claims and is intended to provide a starting point in any claim-research process; it should not be considered a final compilation of mining-claim status. Patents and prospecting sites are not shown.

Before actual staking, the locator should research land status at the following agencies:

.U.S. Bureau of Land Management (BLM)
.U.S. Bureau of Mines (USBM)
.State of Alaska, DGGS
.State of Alaska, Division of Land and Water Management
.District Recorders Office

In addition, field checks of all locations should be made prior to land acquisition or use.



MINING-CLAIM INFORMATION FOR THE FAIRBANKS QUADRANGLE, ALASKA (1985)

Revised May 1986

by

Alfred G. Sturmann

EXPLANATION

95 Kardex number: A reference number assigned to each claim or claim group and entered into the DOM file system. Includes placer or lode claims.
