

DGGS GCP/CHK Data Collection: Wales September 2015

Included in this document are the localities with various photos for each GCP/CHK collected in and around the city of Wales in early September of 2015. Each point page includes 1) Close range photo on ground 2) Medium-range photo including surrounding environment and 3) an aerial location from the DCEED imagery. There are two types of points collected in this survey; ones with respect to x,y locations (numbered points) and ones with respect to z (or elevation) heights (lettered points). The exception is GCP 16, shown as a yellow point on the map, which can be used for x, y and z control.
