

Main data table with columns: ANALYTICAL DIVISION, GEOLOGICAL AND GEOPHYSICAL SURVEYS, ANALYSIS OF ROCK AND STRAIN-SHOULDER SAMPLES SURVEY PASS A-3 QUADRANGLE, OPEN FILE REPORT 66. Includes sub-headers for ATOMIC ABSORPTION SPECTROPHOTOMETRY, SEMIQUANTITATIVE EMISSION SPECTROGRAPHY, and a large grid of numerical data points.

Summary table with 4 columns: ANALYTICAL DIVISION, GEOLOGICAL AND GEOPHYSICAL SURVEYS, ANALYSIS OF ROCK AND STRAIN-SHOULDER SAMPLES SURVEY PASS A-3 QUADRANGLE, OPEN FILE REPORT 66. Contains summary statistics for background and threshold values.

Backgrounds and thresholds are computed using standard techniques as discussed in Lepointier, Claude, 1969, A SIMPLIFIED TREATMENT OF GEOCHEMICAL DATA BY GRAPHICAL REPRESENTATION, Econ. Geol., v. 64, no. 5, p. 538-550.
