

INFRASTRUCTURE - TRANSPORTATION SYSTEMS

This map was compiled from existing highway maps, U.S. Geological Survey topographic maps, and other published and unpublished sources. Mapped features are shown as colored lines with identifying labels. See the User's Guide for the Copper River Area Resource Mapping Project for detailed descriptions of mapped features and documentation of compilation methods and sources.

ROADS are shown as black lines.

1st letter: road class

S State
L Local

2nd letter: road capacity

H Heavy duty
M Medium duty
L Light duty
U Unimproved

3rd letter: road surface

P Paved
U Unpaved

4th number: State highway number

EXAMPLE

TRANSMISSION LINES are shown as green lines.

1st number: number of transmission lines
2nd number: capacity of the 1st line
3rd number: capacity of the 2nd line
etc.

Transmission Line Capacity

Code	Capacity
1	>=230 Kv
2	138 Kv
3	115 Kv
4	69 Kv
5	34.5 Kv
6	24.9 Kv
7	14.5 Kv
8	<= 12.5 Kv

EXAMPLE

PIPELINES are shown as blue lines.

T Trans-Alaska Pipeline System
N Proposed Northwest Alaska Natural Gas Pipeline

RAILROADS are shown as red lines.

A Abandoned

NOTE: This map is intended for regional planning purposes; site-specific planning will require ground verification of mapped features.
