

Geology by: R.R. Reifensuhl 1981-1993, C.G. Mull 1970-1973, E.E. Harris 1982, M.S. Robinson 1992, J.G. Clough 1992, G.H. Pessell 1992, S.A. Liss 1992, T.M. Moore 1992, W.K. Wallace 1990, and K.E. Adams 1992.

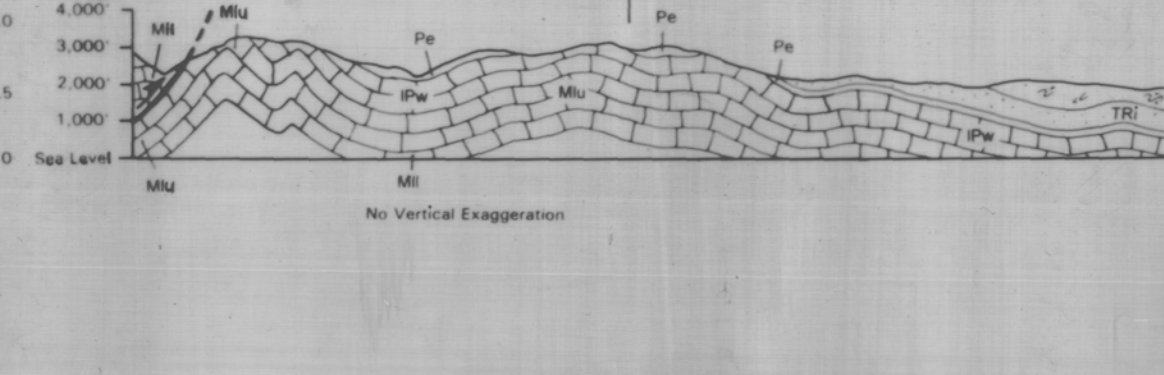

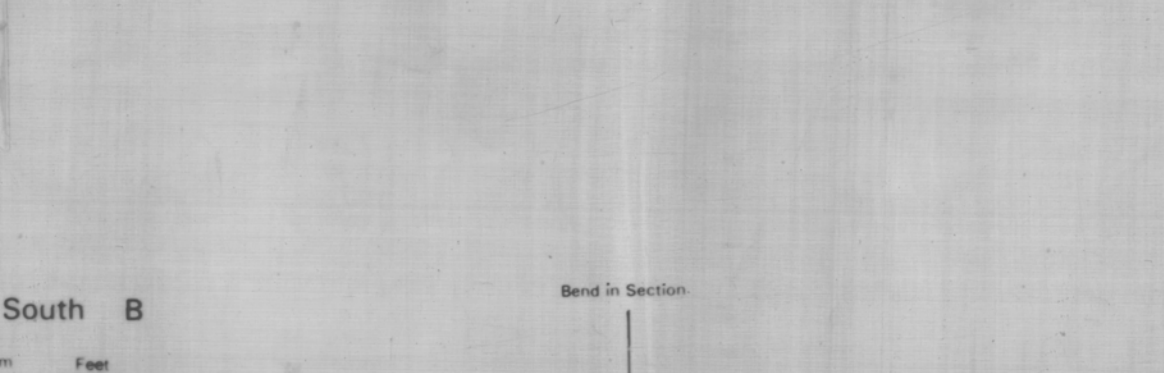

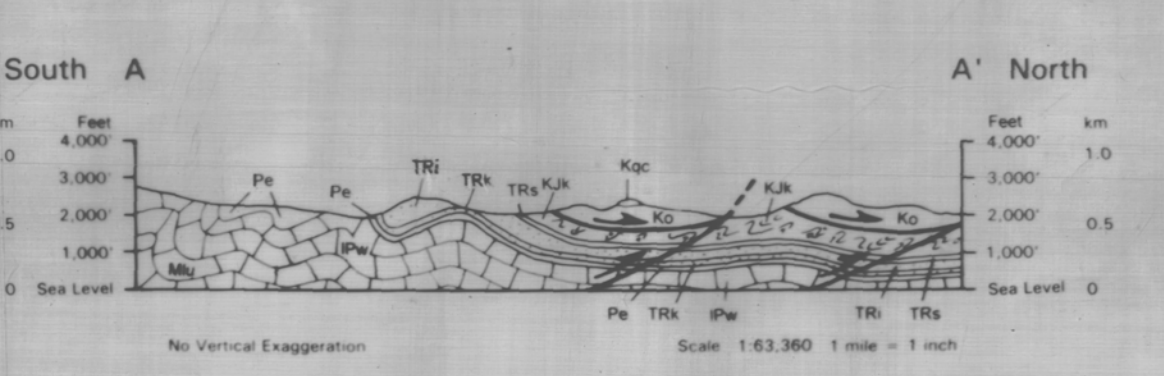

FIELD STATION LOCATIONS: A map showing the locations of field stations across the quadrangle, with a scale of 1:63,360.

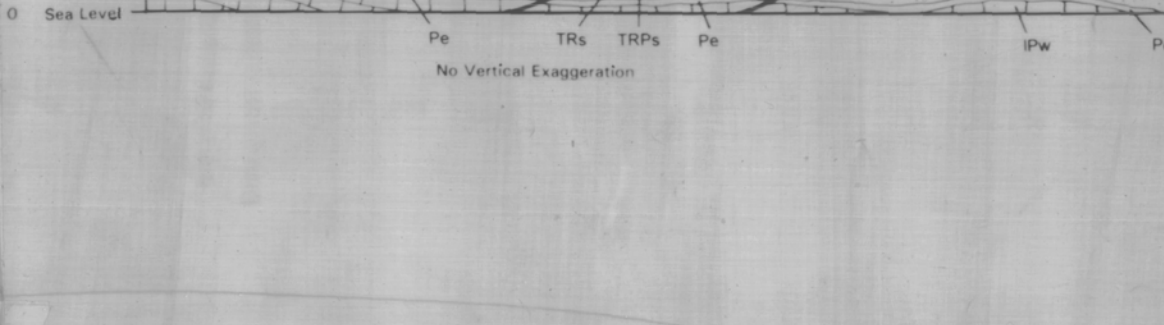

Generalized Stratigraphic Sections, North Slope, Alaska

DESCRIPTION OF MAP UNITS: Detailed descriptions of geological units such as the Brookian sequence, Eklaksh Formation, and various limestone and shale units.

Geologic map symbols legend for cross-sections, including symbols for contact, high angle fault, thrust fault, and bedding types.

REFERENCES: A comprehensive list of geological publications related to the study, including works by Armstrong, Breda, Clough, Dutton, and others, covering topics like stratigraphy, geology, and geophysics in Alaska.
