

MAP HISTORY

Data for the geophysical maps were produced under contract between the State of Alaska, Department of Natural Resources, Division of Geological & Geophysical Surveys, and WGM Mining and Geological Consultants, Inc. Airborne geophysical data for the area were acquired by Geotectrix-Dighem, a division of CGG Canada Ltd., in 1997. Three of the geophysical maps—the aeromagnetic, the 900 Hz coplanar resistivity, and the 7200 Hz coplanar resistivity—have been released with topography at a scale of 1:63,360. The 56,000 Hz coplanar resistivity data were released in digital form. These publications and other products from this geophysical survey are available from: DGGS, 794 University Avenue, Suite 200, Fairbanks, Alaska 99709. Phone: (907) 451-5020. FAX: (907) 451-5050.
