

**EXPLANATION**

#426 Zn, Cu, Pb, Co, Ba  
 Rock and/or rubblecrop sample localities anomalous or highly anomalous (underlined) in zinc, copper, lead, cobalt and barium

Zn, Ba, Cu, Co  
 #314 #317  
 All samples within dashed lines are anomalous or highly anomalous (underlined) in elements indicated

Appendix A contains analytical results

Scale, miles  
 0 1 2  
 Contour interval 100 feet

Figure 6. - Porcupine Mining Area showing rock and rubblecrop sample localities with anomalous values of one or more of the following elements: Zinc, copper, lead, cobalt and barium

Base adapted from U.S.G.S. 1:63,360 scale Skagway (8-3 & B-4) Quadrangles.
