

Contour map

Configuration

Figure 3.- Form of the bedrock surface near Palmer.

Explanation:

- # Bedrock exposure; figure shows
 - + 210 Altitude of bedrock in surface exposure.
 - x 126 Altitude of bedrock surface in well or other excavation; figure shows altitude.
 - x? 126 Altitude of what may be surface of bedrock possibly encountered in well; figure shows altitude.
 - o 75 Altitude of bottom of well that does not reach bedrock; figure shows altitude of bottom.
 - 100 Contour on surface of bedrock; dashed where indefinite.
- Datum is mean sea level.
Contour interval, 50 and 100 feet.

Sources of data: well records; field observation; Anchorage C-6 quadrangle U.S. Geological Survey. altitudes based on
