

ROSE FAMILY

Table listing botanical specimens from the Rose family, including species like Dryas integrifolia, Geum glaciale, and Rosa acicularis, with their characteristics and distribution notes.

PEA FAMILY

Table listing botanical specimens from the Pea family, including species like Astragalus alpinus, Lathyrus maritimus, and Oxytropis deflexa, with their characteristics and distribution notes.

FLAX FAMILY

Table listing botanical specimens from the Flax family, including Linum perenne and Linum lewisii.

CROWBERRY FAMILY

Table listing botanical specimens from the Crowberry family, including Empetrum nigrum.

VIOLET FAMILY

Table listing botanical specimens from the Violet family, including Viola epipsila and Viola repens.

OLEASTER FAMILY

Table listing botanical specimens from the Oleaster family, including Shepherdia canadensis.

EVENING-PRIMROSE FAMILY

Table listing botanical specimens from the Evening-primrose family, including Epilobium anagallidifolium and E. angustifolium.

MARE'S TAIL FAMILY

Table listing botanical specimens from the Mare's tail family, including Hippuris tetraphylla and H. vulgaris.

PARSLEY FAMILY

Table listing botanical specimens from the Parsley family, including Bupleurum americanum and Conioselinum cnidifolium.

WINTERGREEN FAMILY

Table listing botanical specimens from the Wintergreen family, including Moneses uniflora, Pyrola grandiflora, and P. secunda.

HEATH FAMILY

Table listing botanical specimens from the Heath family, including Andromeda polifolia, Arctostaphylos alpina, and Chamaedaphne calyculata.

DIAPENSIA FAMILY

Table listing botanical specimens from the Diapensia family, including Diapensia lapponica and Diapensia obovata.

PRIMROSE FAMILY

Table listing botanical specimens from the Primrose family, including Androsace chamaejasme, A. ochotensis, and Primula borealis.

LEADWORT FAMILY

Table listing botanical specimens from the Leadwort family, including Ameria maritima.

GENTIAN FAMILY

Table listing botanical specimens from the Gentian family, including Gentiana glauca, G. propinqua, and Menyanthes trifoliata.

PHLOX FAMILY

Table listing botanical specimens from the Phlox family, including Phlox sibirica, Polemonium acutiflorum, and P. boreale.

BORAGE FAMILY

Table listing botanical specimens from the Borage family, including Eritrichium aetioides, E. chamissonis, and Myosotis alpestris.
