

Table 10. Comparison of analytical results on Soil Samples from the Bruce Hills copper-molybdenum deposit, Glacier Bay National Monument, Alaska

Analytical methods are described in the section on Geochemical studies.

Total heavy metals test by L. C. Huff and R. J. Wehr

Spectrographic analyses by R. G. Havens and Nancy Conklin

Sample No.	Total Heavy Metals Test		Spectrographic (ppm)	
	Cold	Hot (ppm)	Copper	Molybdenum
Re 31	½	20	73	0
32	½	20	57	0
