

EXPLANATION

Concentration of arsenic in parts per million:

○ Not detected

● Less than 200

● 200

● > 300

Concentration shown

△ NW 200 As

Ilmoritic stream deposit, showing concentration of arsenic

Antimony shown as L if detected.

LSb

LSb 700As

700 ppm arsenic, antimony present

LSb

< 200 ppm arsenic, antimony present

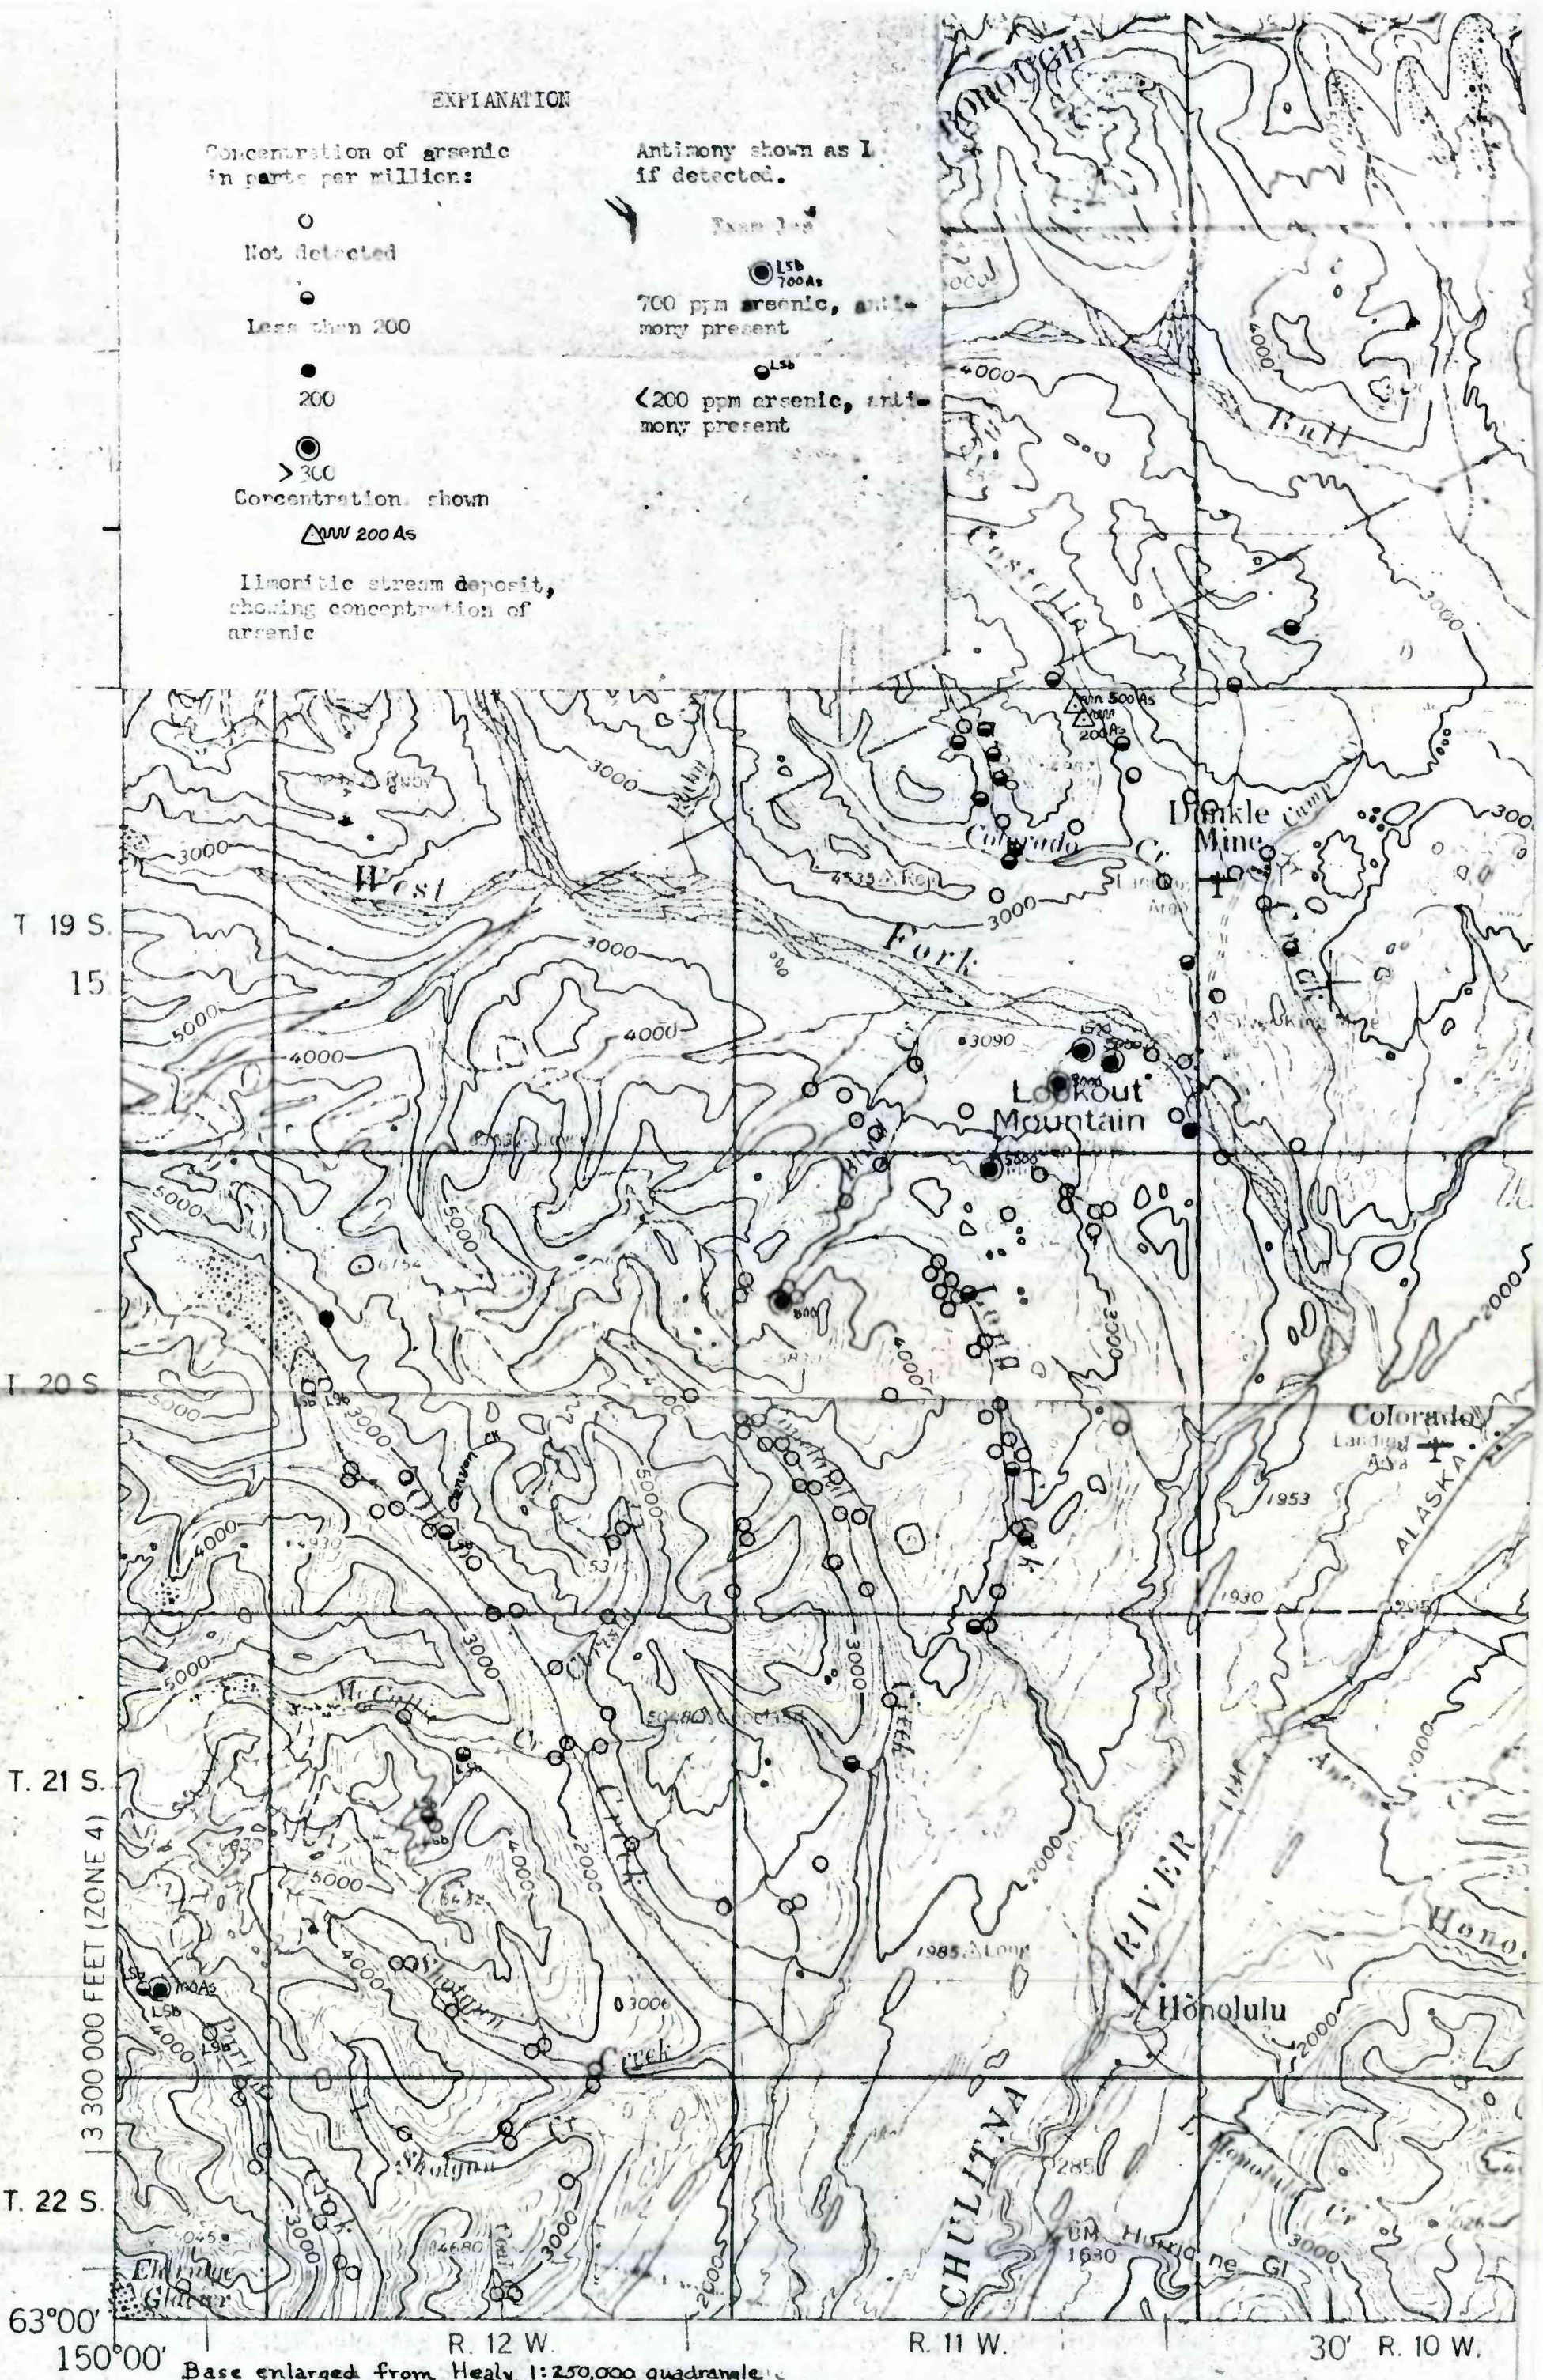

FIGURE 5 -- Arsenic and Antimony concentrations in stream sediment samples.

69-123

Datum is mean sea level -- Contour interval 200-feet
