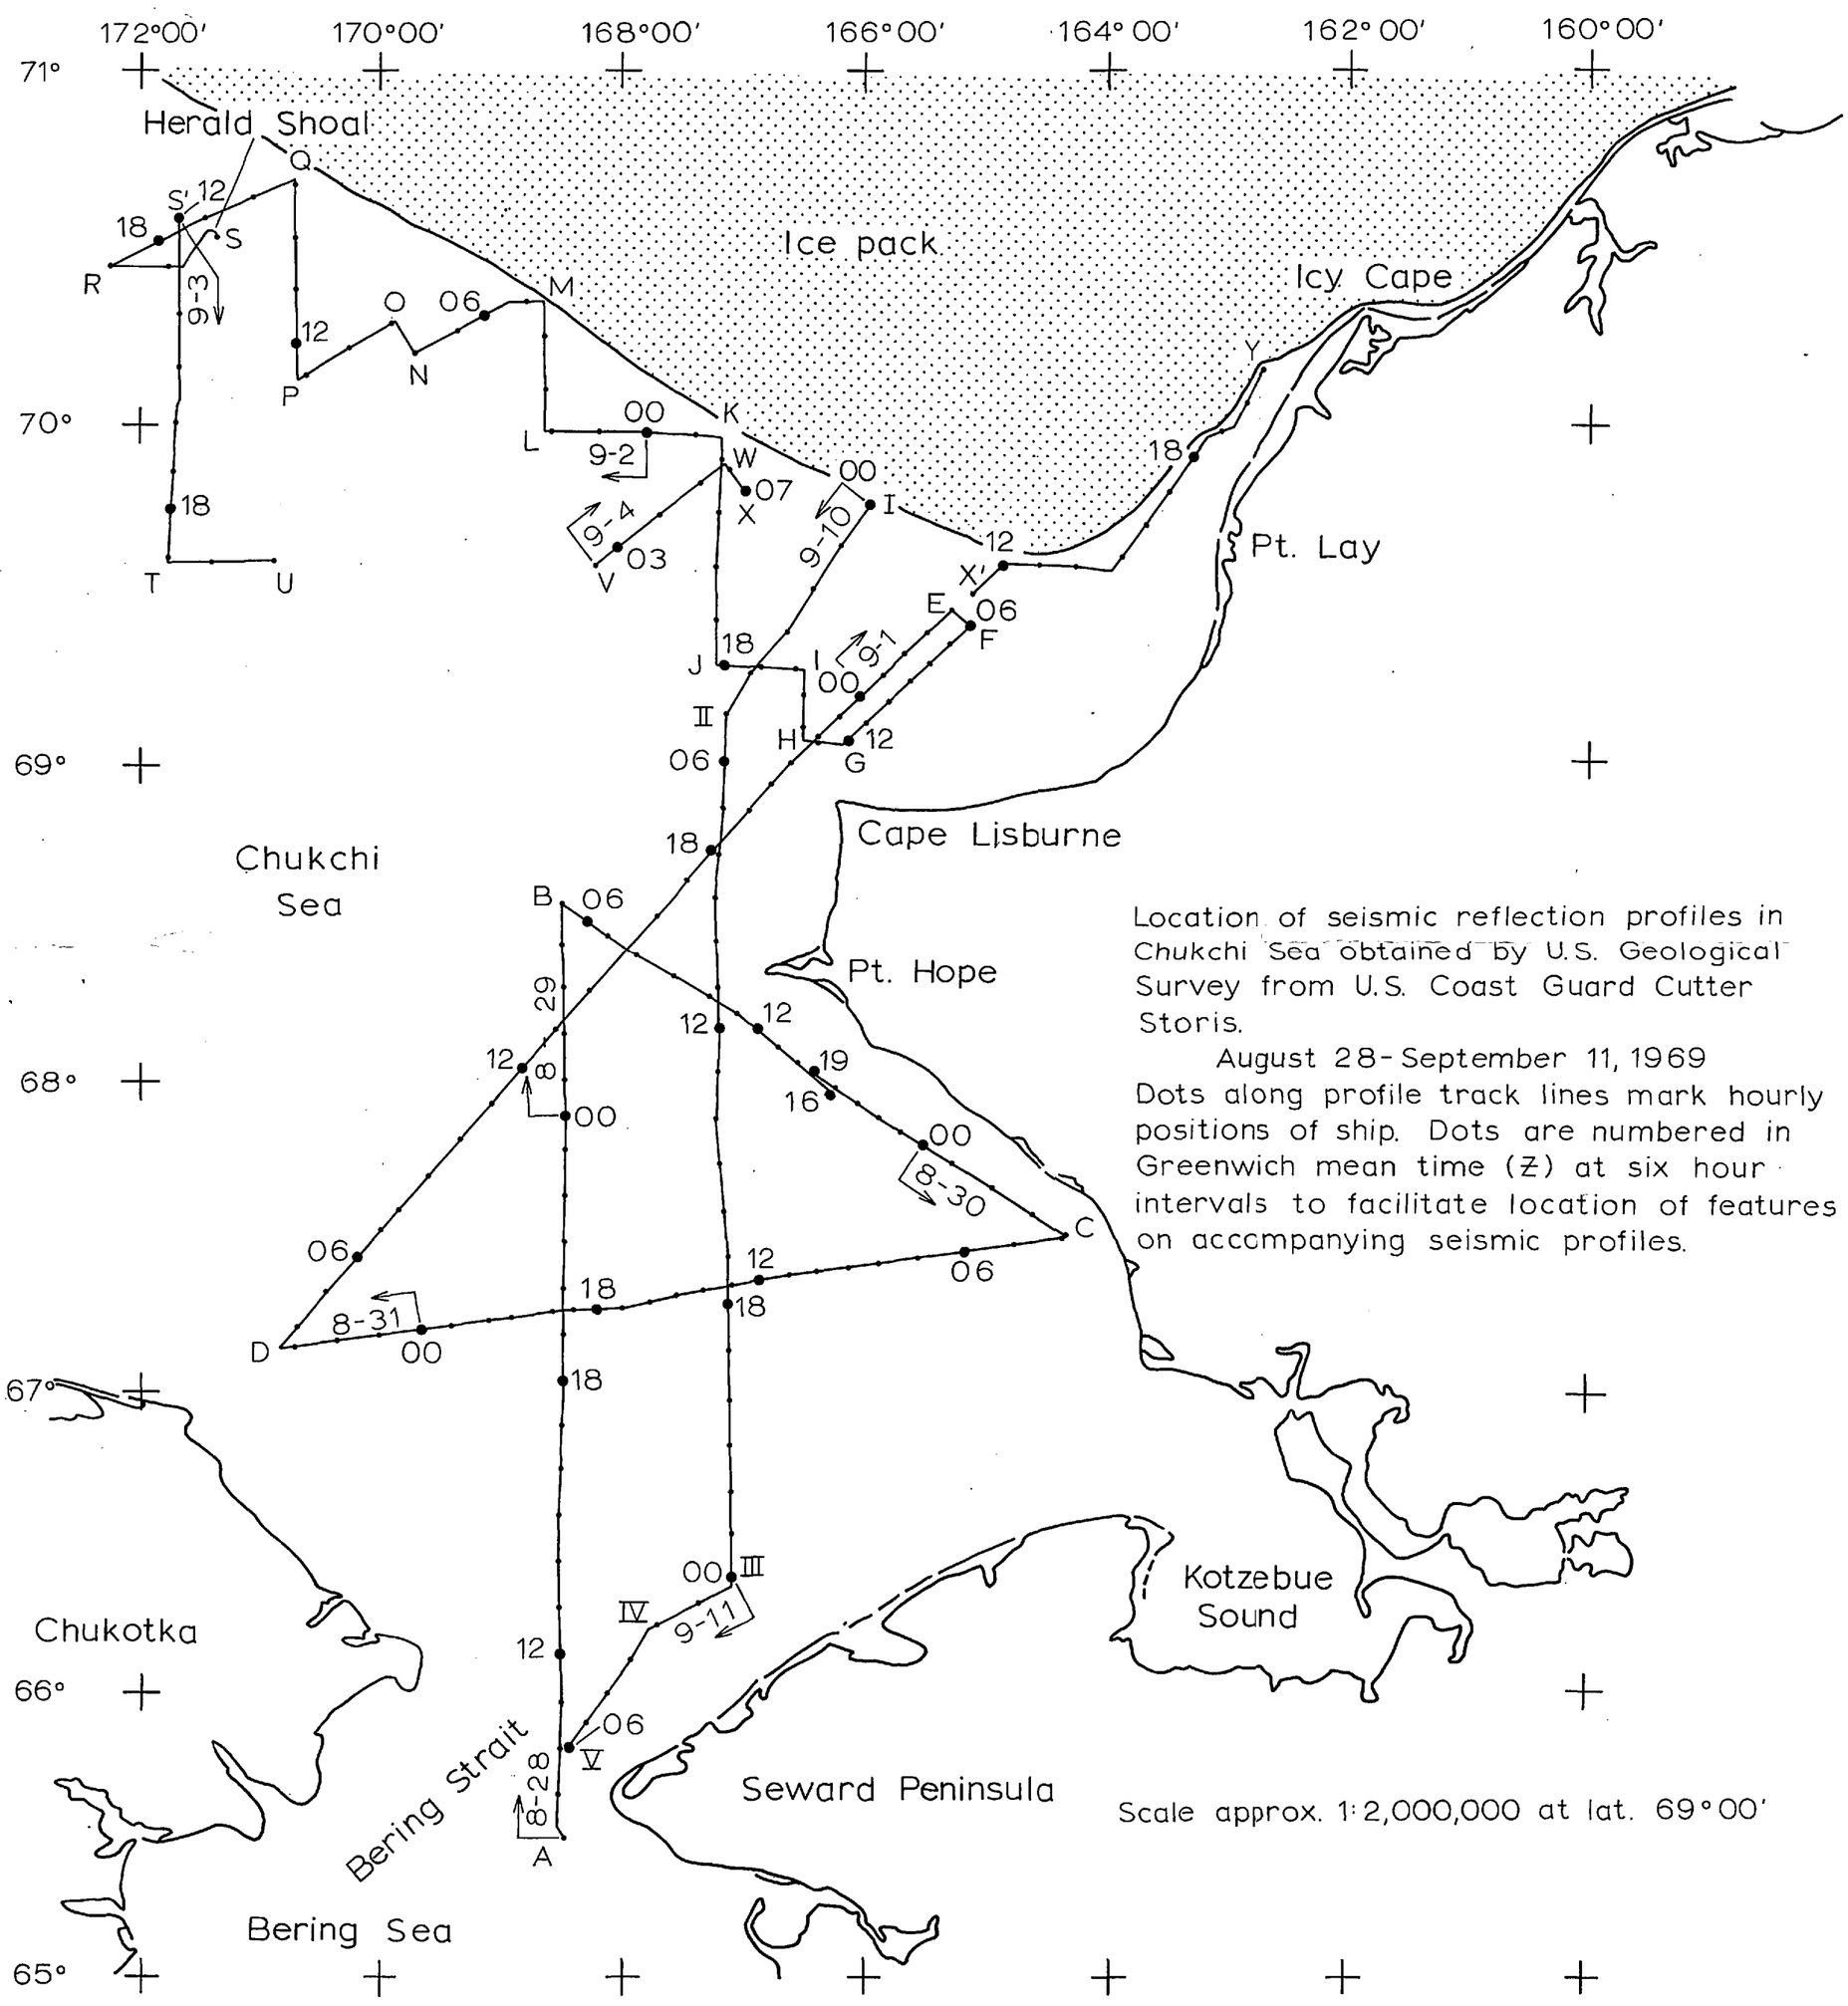
U.S. GEOLOGICAL SURVEY
OPEN FILE MAP



Location of seismic reflection profiles in Chukchi Sea obtained by U.S. Geological Survey from U.S. Coast Guard Cutter Storis.

August 28 - September 11, 1969

Dots along profile track lines mark hourly positions of ship. Dots are numbered in Greenwich mean time (Z) at six hour intervals to facilitate location of features on accompanying seismic profiles.

Scale approx. 1:2,000,000 at lat. 69°00'

Map released without editorial and technical review for conformity to U. S. Geological Survey standards.
