Geologic maps on Alaska published by the U.S. Geological Survey, post-1930:
Scales 1:96,000 to 1:250,000
(through October 1982)

Compiled by B. A. Hopkins

Open-File Report 83-577

This report is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards.

1. Anchorage, Alaska

1983
INTRODUCTION

This report is an update of Open-File Report 80-1252 and is written in conjunction with Open-File Report 83-578. This report includes a list of bibliographic citations found on pages 2-19 and an index map showing post-1930 geologic maps published by the United States Geological Survey at scales 1:96,000 to 1:250,000 (through Oct 1982).

Each area outlined on the index map is indicated by a number, which is keyed to the list of bibliographic citations published for that area. Geophysical maps have been excluded.

Yeand, Warren, 1973, Preliminary geologic map of a prospective
transportation route from Prudhoe Bay, Alaska, to Canadian
border, part V, Coleen quadrangle (north half), Alaska: U.S.
Geological Survey Miscellaneous Field Studies Map MF 502, 2
sheets. Scale 1:250,000.
