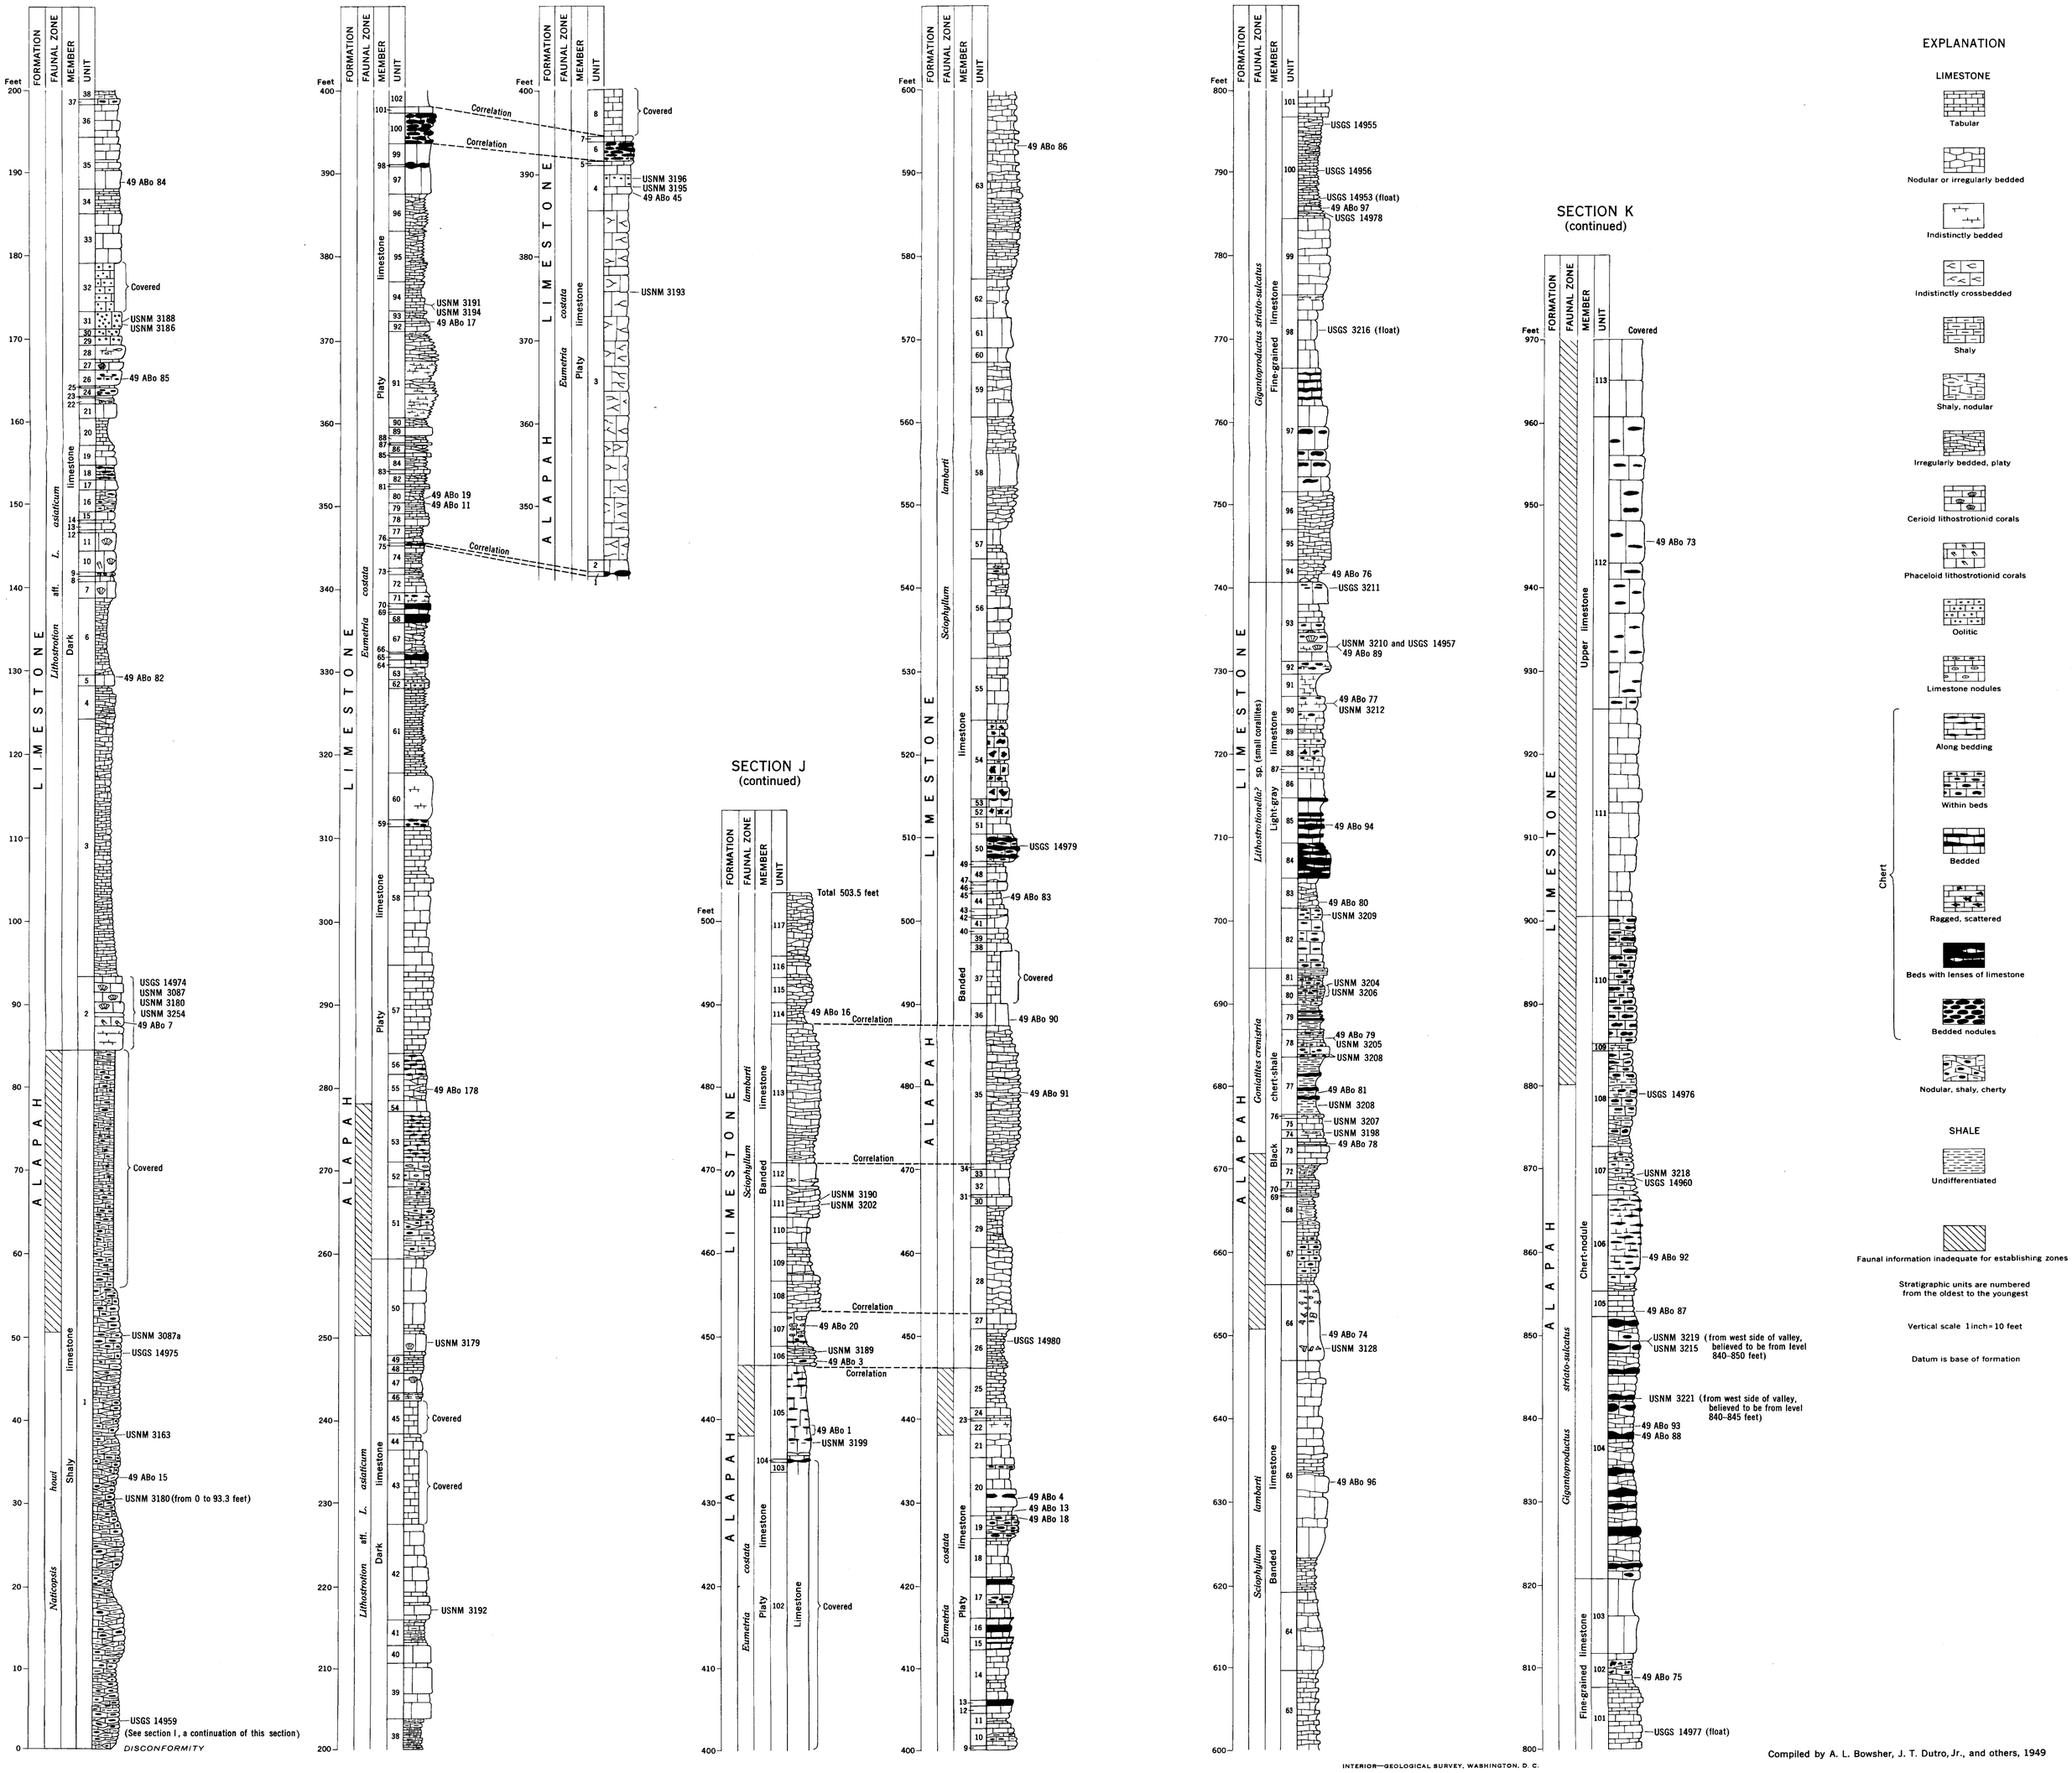
CORRELATION OF SECTIONS J AND K

SECTION J

SECTION J (continued)

SECTION K

SECTION K (continued)



EXPLANATION

LIMESTONE

- Tabular
- Nodular or irregularly bedded
- Indistinctly bedded
- Indistinctly crossbedded
- Shaly
- Shaly, nodular
- Irregularly bedded, platy
- Cerioid lithostrotionid corals
- Phaceloid lithostrotionid corals
- Oolitic
- Limestone nodules
- Chert
  - Along bedding
  - Within beds
  - Bedded
  - Ragged, scattered
  - Beds with lenses of limestone
  - Bedded nodules
  - Nodular, shaly, cherty

SHALE

- Undifferentiated

- Faunal information inadequate for establishing zones

Stratigraphic units are numbered from the oldest to the youngest

Vertical scale 1 inch = 10 feet

Datum is base of formation

Compiled by A. L. Bowsher, J. T. Dutro, Jr., and others, 1949
