

EXPLANATION

Drainage-basin boundary and number in tables (see text)

Limits of fallout sectors, and their azimuths

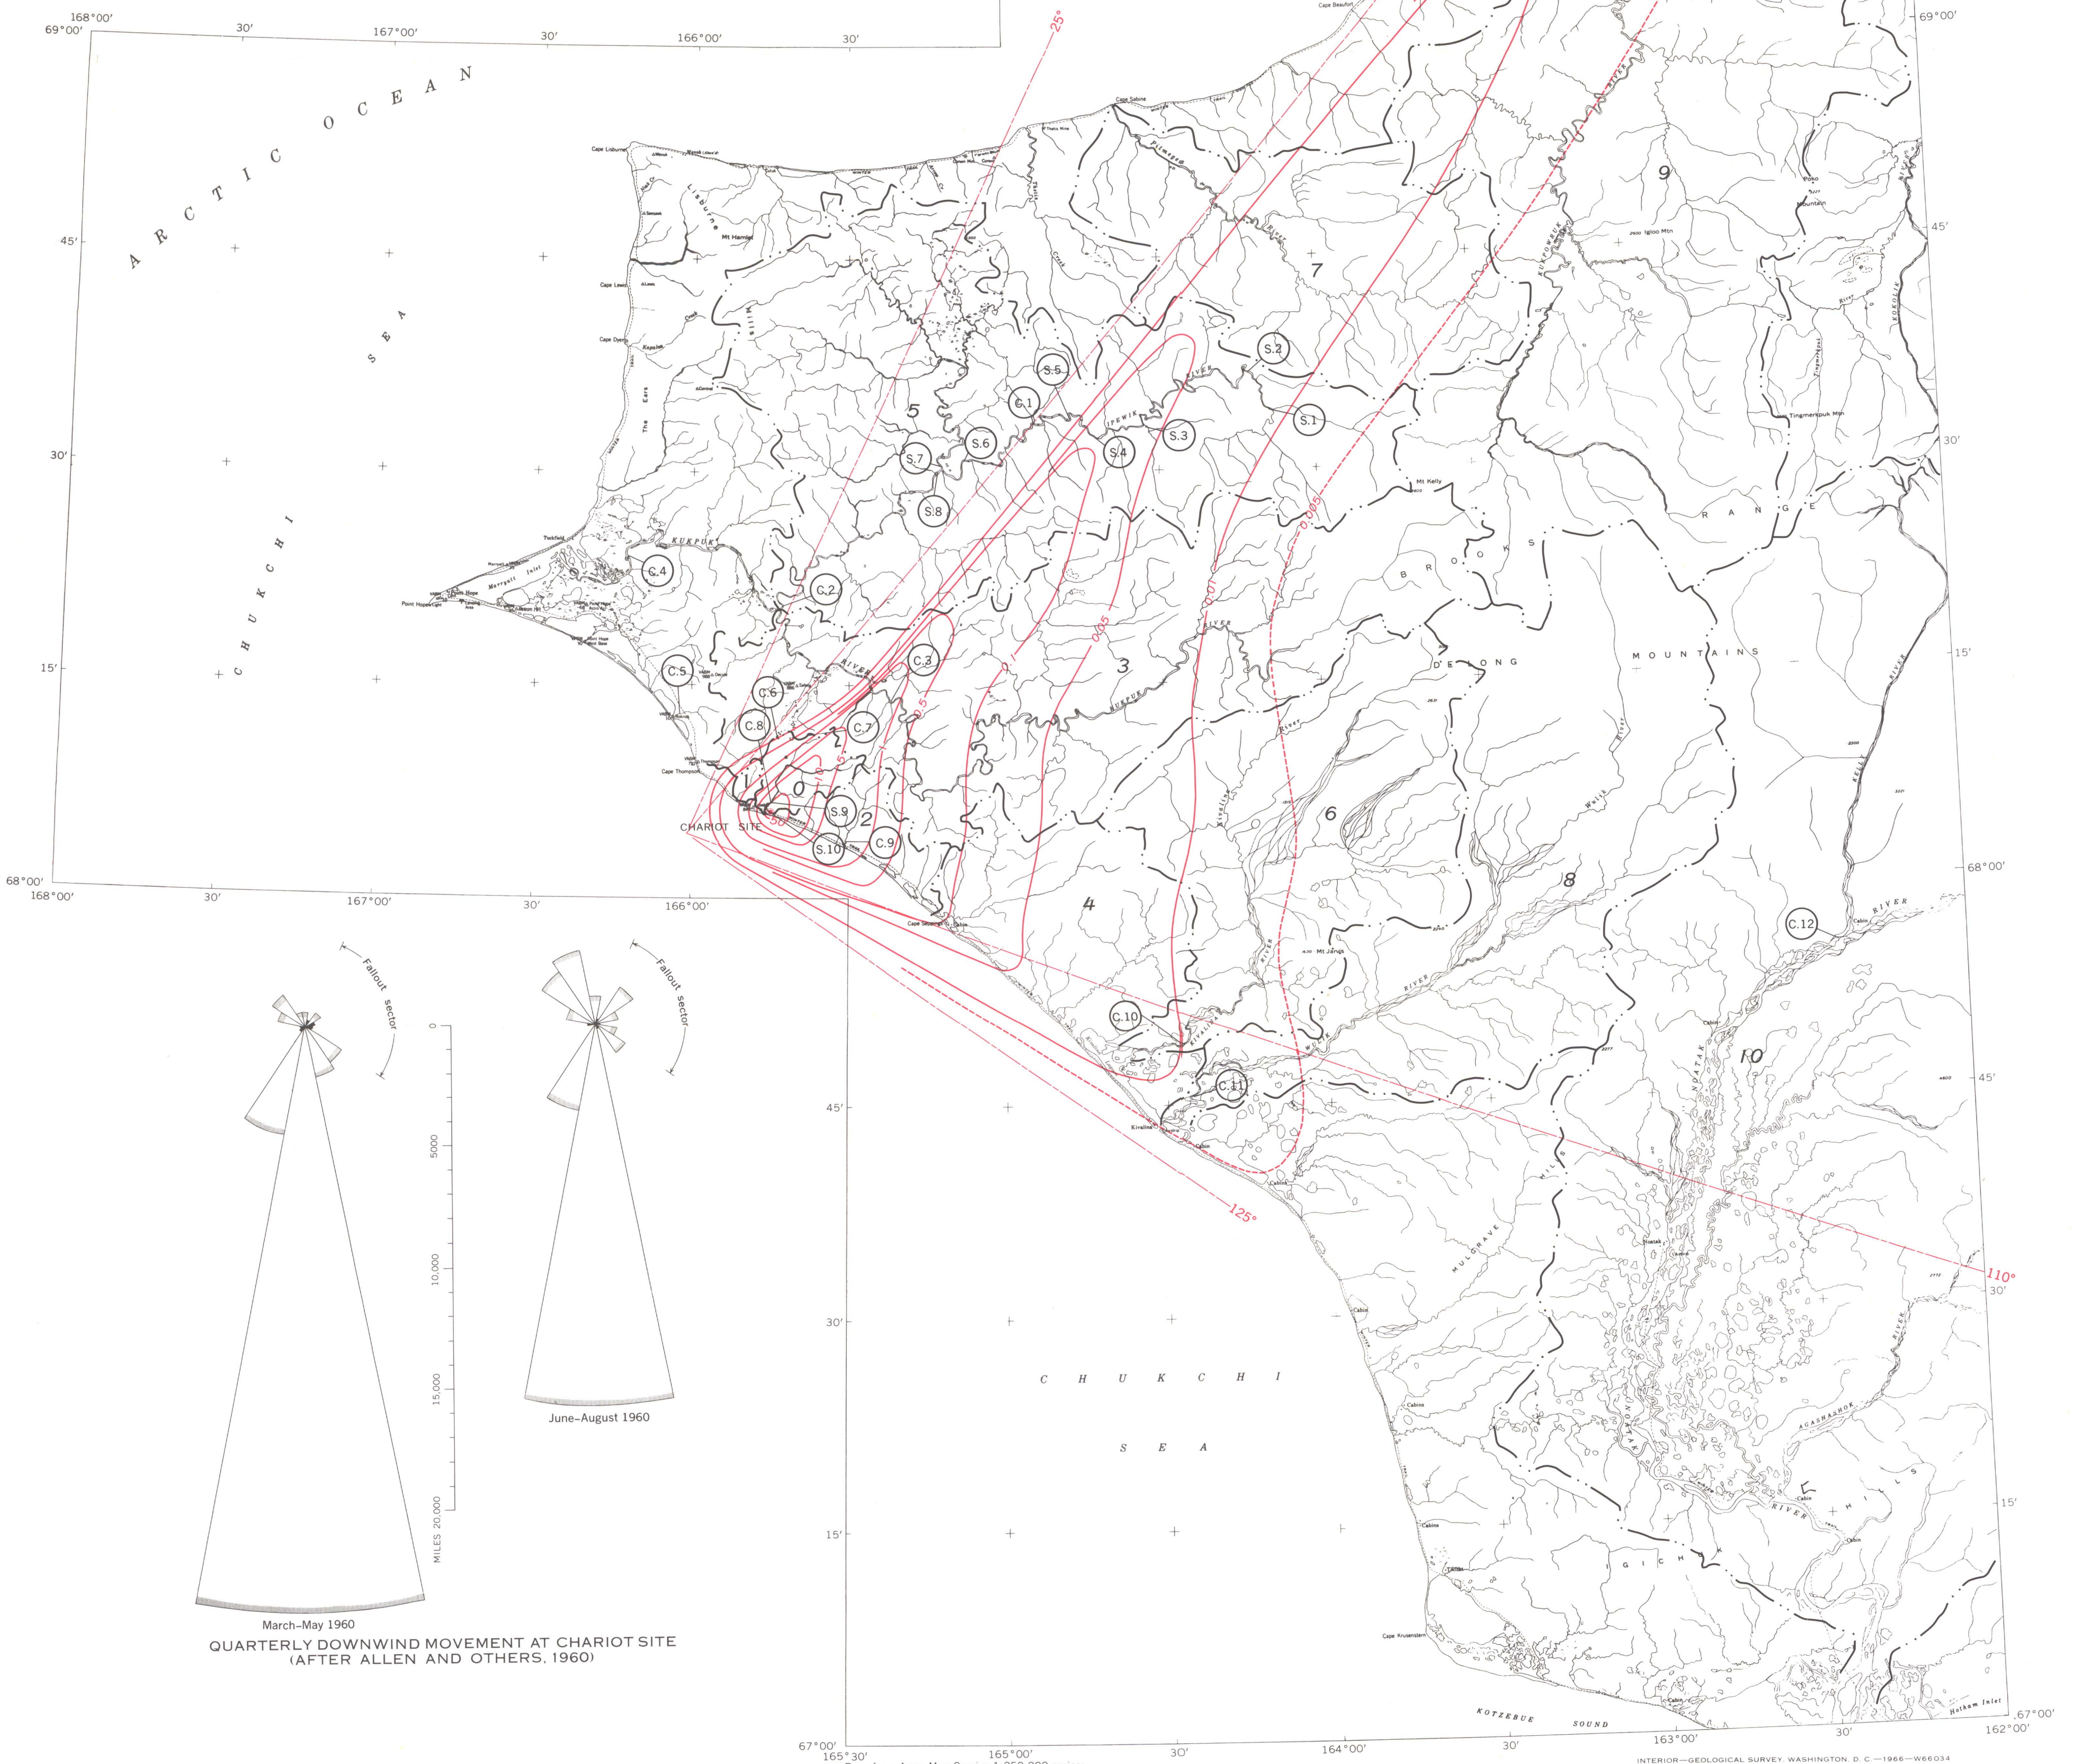

Center of detonation

Fallout, in megacuries per square mile
All fission products at 1-hour reference intensity.
After Lawrence Radiation Laboratory (written commun., Mar. 29, 1961). Dashed line, 0.005 megacurie, extrapolated by author

Chemical analysis of water (table 10)

Particle-size analysis of sediment or stream deposit (table 7)

AREA OF REPORT

MAP SHOWING EXPECTABLE FALLOUT AND SAMPLING POINTS FOR DRAINAGE BASINS
IN THE CHARIOT-SITE AREA, NORTHWESTERN ALASKA
