

Geochemical analysis of core (3,340'-3,625') from the BP Exploration (Alaska) Inc Milne Point Unit KR N-01 well.

Created October 2006

Total of 1 page in report

Alaska Geologic Materials Center Data Report No. 335

Milne Point Field Core Samples, Alaska North Slope

Results of ExxonMobil Geochemical Analysis, September, 2005

Well	Depth (ft)	Sand	mg HC/g Rock S1	mg HC/g Rock S2	mg HC/g Rock S1+S2	S1/(S1+S2)
