DATA-QUALITY ASSESSMENT OF GEOLOGIC MAPPING ALONG PROPOSED TRANSPORTATION CORRIDORS IN THE AMBLER RIVER QUADRANGLE, ALASKA

compiled by
D.S.P. Stevens and R.L. Smith
2003

The data on this map were created by the U.S. Geological Survey. The map was produced for a contract with the State of Alaska. The data were generated for the purposes of resource and environmental assessments and are intended to be used by the federal, state, and local governments, as well as the private sector, for a variety of planning purposes.

The data are intended to be used as a base for further analysis and planning. They are not intended to be used for navigation or as a substitute for survey-grade data. The data may be used to support environmental assessments, resource management, and land use planning.

The data are provided "as is" and without warranty of any kind, either express or implied, including but not limited to the implied warranties of merchantability and fitness for a particular purpose. The data may not be used for navigation or to determine legal rights or entitlements.

The data may not be altered, modified, or redistributed without the written permission of the U.S. Geological Survey. The data may not be used for commercial purposes or for any purpose that conflicts with the mission of the U.S. Geological Survey.
