Color-Indexed Community Map GOLOVIN

DGGS MP 154 version 2

64° 32' 41" N 163° 01' 49" W (NAD83)
 Approximate Elevation: 82'
 Townships 11 South, Range 22 West, K.R.M., AK
 U.S.G.S. Quadrangle: "SOLOMON C-3", Alaska
 CAFE NOME RECORDING DISTRICT

BUILDING KEY

1. Olson Hangar	11. Chink Traditional Store
2. Olson Store	12. Old Health Clinic
3. City Hall	13. Old Fire Hall / Storage
4. City Shop / Post Office	14. TeleAlaska
5. Washeteria	15. Old Fish Processing Plant
6. School Storage	16. New Fire Hall
7. Old Church	17. Power Plant
8. M.L. Olson School	18. New Washeteria
9. School	19. Water Tank
10. New Health Clinic	

LEGEND

Residential Building	Easement
Commercial Building	Berry Picking Area
Public Building	Periodic Flooding
Electric & Telephone	Subdivision Block
Sewer Line	
Water Line	
Fuel Line	

SCALE: 1" = 100'
 Date of Photography: August 23, 2015
 Magnetic Declination computed by U.S.G.S Geomag
 *Other boundaries are defined with a text label and not shown in the legend.

Elevation intervals on the map are derived from 2015 source data. Temporal changes, human or naturally induced, may have occurred that will cause the elevations depicted on these map figures to no longer represent actual surface conditions.

Please note the following disclosures/use limitations:
 -These maps illustrate elevation and are not intended for use in the definition of flood zones. Flood levels are not perfectly flat and will not directly correspond to specific elevations.

-Vertical and horizontal accuracies vary by location.
 -Best available data sets in Alaska are not always up-to-date. Examples: Houses or infrastructure may have moved since DCRA linework was completed, local engineering projects might raise a road or add a seawall, and/or beach and sand spits may have naturally changed shape.
 -Colors are restricted to areas of known elevation. In some cases the best available elevation model does not cover the entire DCRA Community Map area.

Color Key Available as Separate Sheet

Color indices shown to the left define relative vertical elevations. The vertical magnitude for each colored elevation range varies as shown (i.e. orange encompasses a 2-meter range of elevations that are the lowest elevations mapped). For up-to-date numerical elevation values associated with each colored elevation range, see key on a separate sheet MP 154 version 2 'Golovin Numerical Elevation Table'.

MAP NOTES

Color-indexed maps were prepared using funding from the Alaska Ocean Observing System. Elevation data and aerial photographs were collected using funding from the Coastal Impact Assistance Program, U.S. Fish and Wildlife Service, U.S. Department of the Interior. The views and conclusions contained in this document are those of the authors and should not be interpreted as representing the opinions or policies of the U.S. Government. Mention of trade names or commercial products does not constitute their endorsement by the U.S. Government.

This map was originally prepared by Kawerak Inc. in cooperation with the Alaska Department of Commerce, Community, and Economic Development (Commerce) using funding from the Bureau of Indian Affairs Transportation Planning, Alaska Native Tribal Health Consortium, Alaska Village Electric Cooperative, and funding from the Initiative for Accelerated Infrastructure Development (IAID). The IAID is supported by grants from the Denali Commission, USDA Rural Development, Alaska Department of Transportation and Public Facilities and Commerce. Kawerak Inc. contracted with Global Positioning Services Incorporated in June of 2004 to prepare the map. The original AutoCAD drawing has been revised for display in ArcGIS and by the addition of updated aerial photography (2015) and elevation indices.

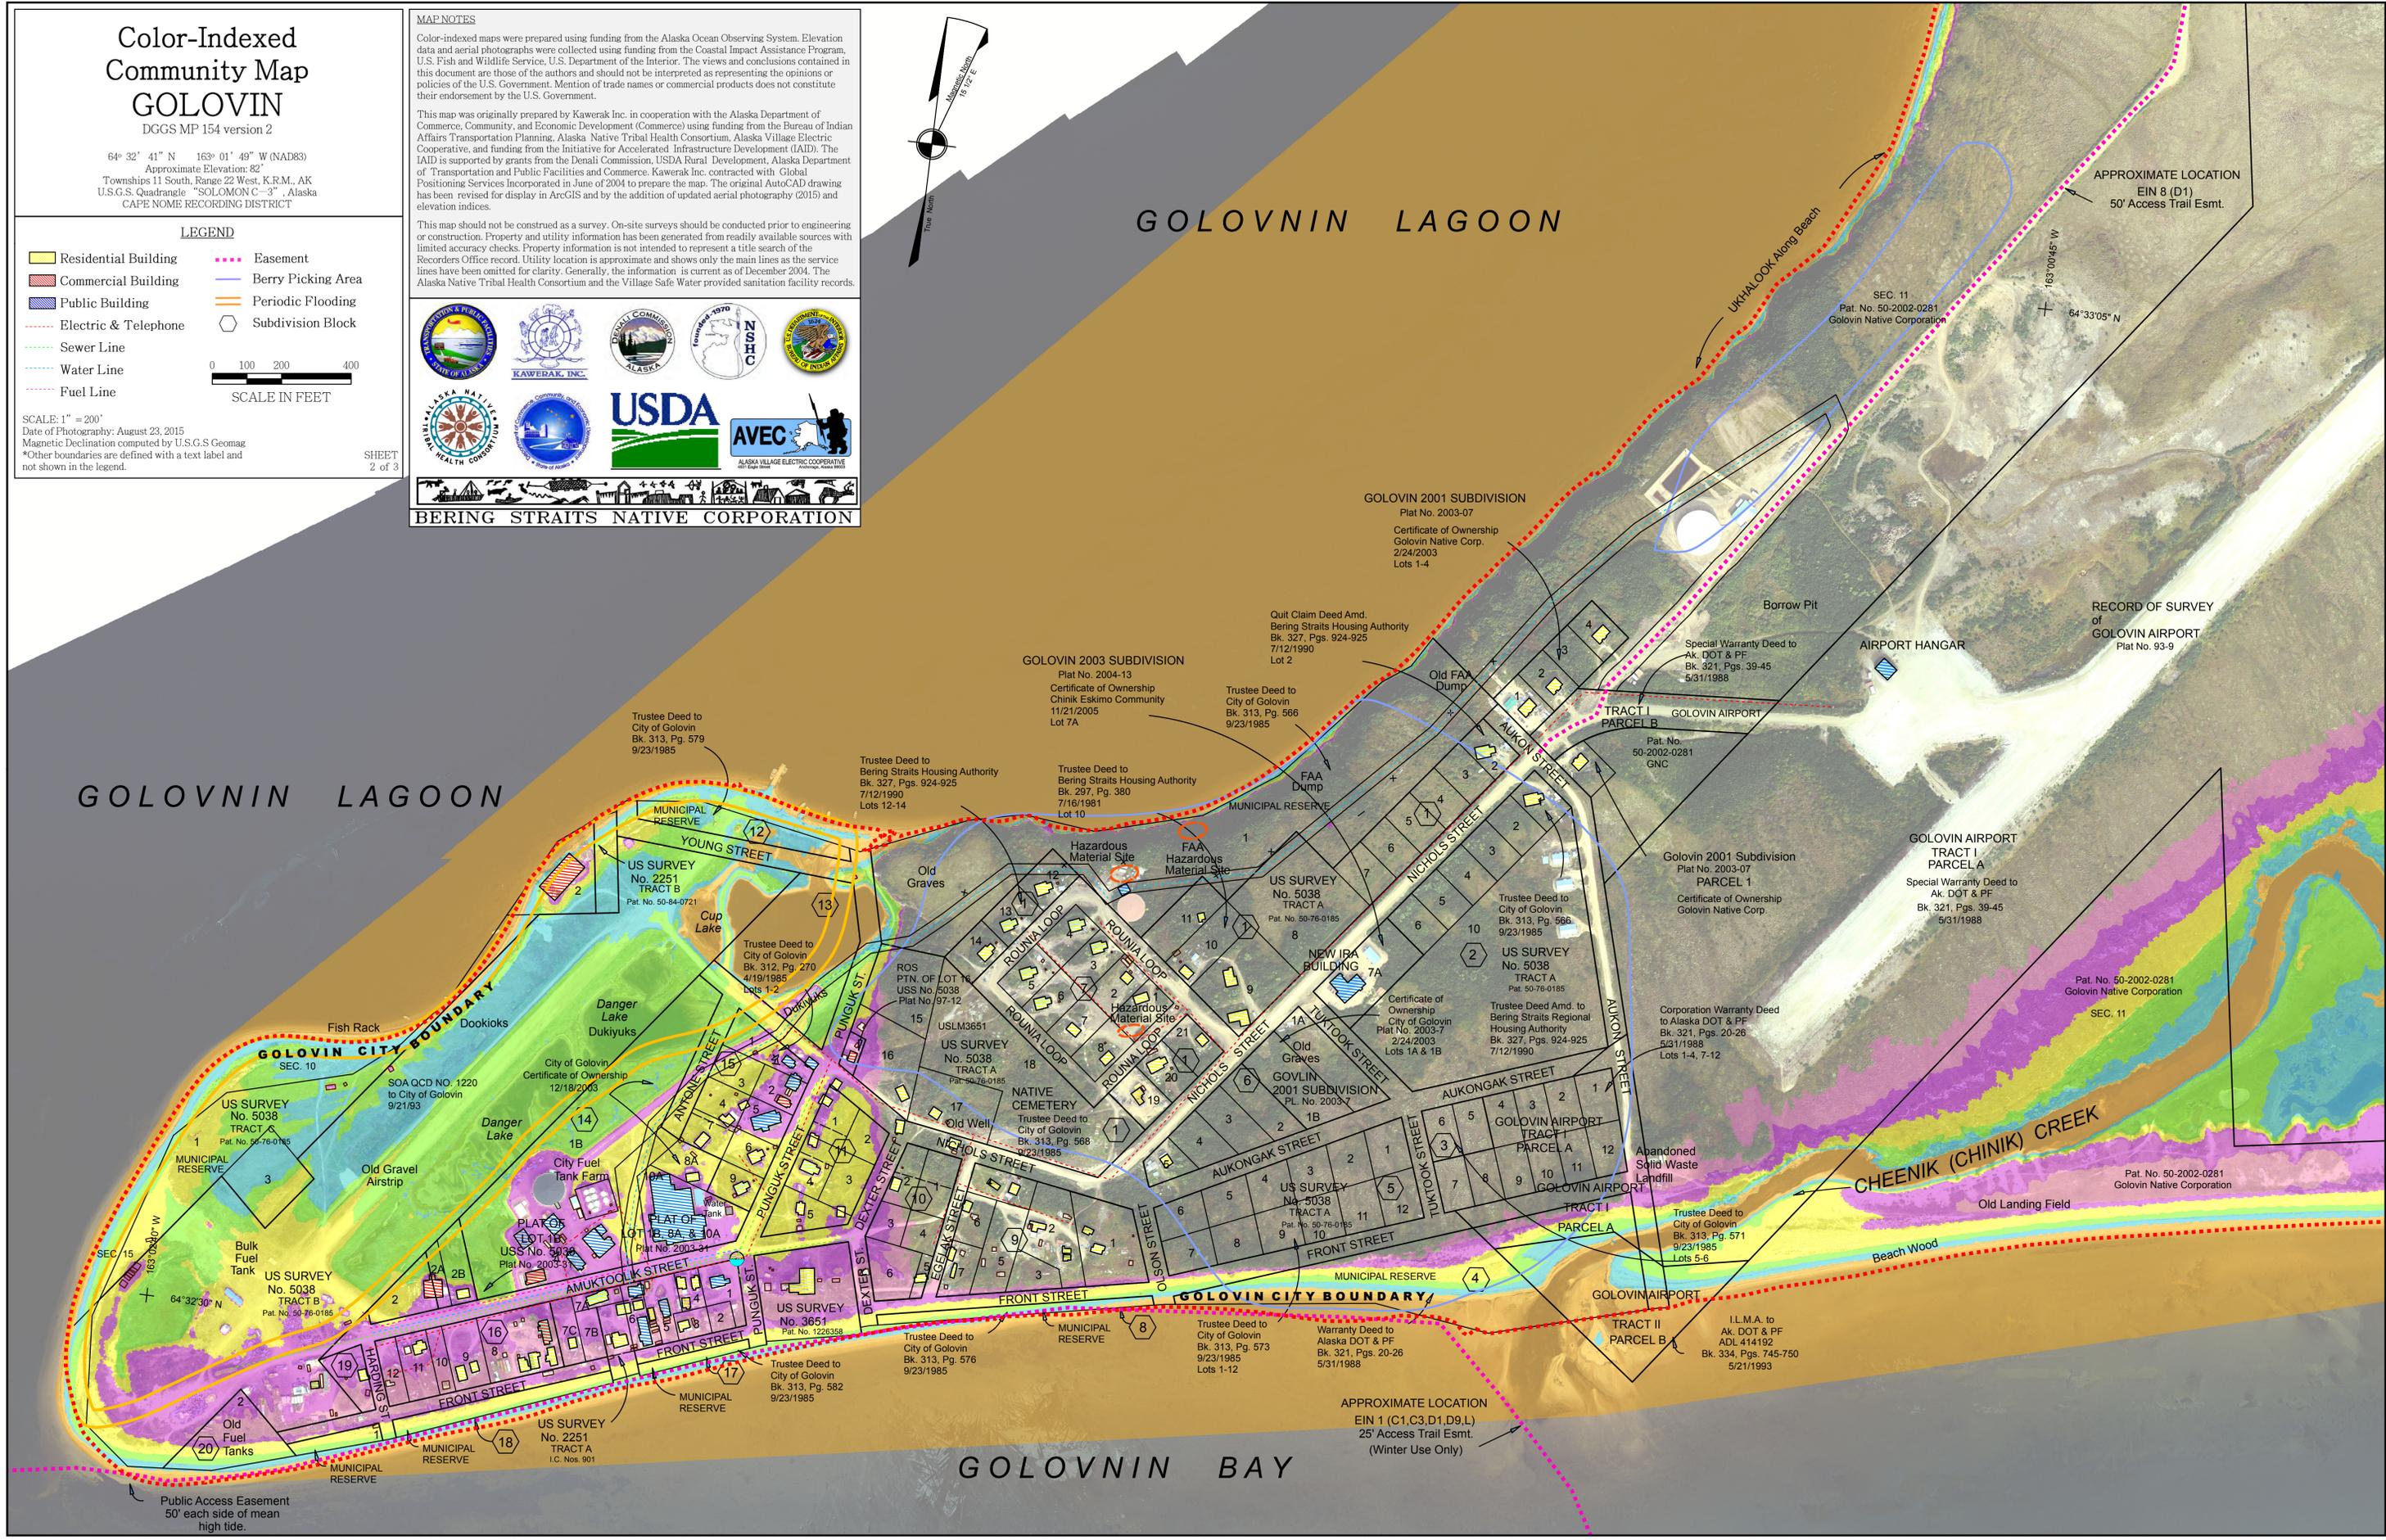

This map should not be construed as a survey. On-site surveys should be conducted prior to engineering or construction. Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a title search of the Records Office record. Utility location is approximate and shows only the main lines as the service lines have been omitted for clarity. Generally, the information is current as of December 2004. The Alaska Native Tribal Health Consortium and the Village Safe Water provided sanitation facility records.
