Color-indexed maps were prepared using funding from Alaska Ocean Observing System. Elevation data and aerial photographs were collected using funding from the Coastal Impact Assistance Program, U.S. Fish & Wildlife Service, and the U.S. Department of Interior. The views and conclusions contained in this document are those of the authors and should not be interpreted as representing the opinions and policies of the U.S. Government. Mention of trademarks or commercial products does not constitute their endorsement by the U.S. Government.

Layers of this map were prepared by the Northwest Arctic Borough in cooperation with the Alaska Department of Commerce, Community, and Economic Development, Division of Community and Regional Affairs using funding from the Northwest Inupiat Housing Authority, NANA Regional Corporation and Maniilaq Association. The Northwest Arctic Borough contracted with Global Positioning Services, Inc. in April of 2013 to prepare this map. The original AutoCAD drawing has been revised for display in ArcGIS and by the addition of updated aerial photography (2015) and elevation indices.

This map should not be construed as a survey. On site surveys should be conducted prior to engineering or construction. This map was compiled to meet horizontal and vertical accuracy in accordance with the national map accuracy standards.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a title search of the Recorder's office records. Utility location is approximate and shows only the main lines as the service lines have been omitted for clarity.

29. City of Kotzebue - Public Works Office	47. GC Communications
30. City of Kotzebue - Storage Facility	48. Nuliyagik Hotel
31. City Solid Waste Facility	49. Bayside Inn
32. Maniilaq Housing Maintenance Building	50. Wells Fargo Bank
33. Old Kotzebue Senior Center (Demolished 2014)	51. Bibber's Bed and Breakfast
34. State of Alaska District Attorney's Office	52. KOTZ Broadcasting
35. Kotzebue IIA Council & Nikahtuch School/Daycare	53. Northwest Arctic Borough - Shop
36. Maniilaq Association Information Services	54. Kotzebue City Hall
37. National Parks Service - Shop/Warehouse	55. Kotzebue Police Department
38. Alaska Commercial Company	56. Kotzebue Regional Jail
39. Maniilaq - Putuyuk Children's Home	57. NWA - Shop/Warehouse
40. NANA Regional Corporation - Storage	58. OTZ Telephone Cooperative, Inc. - Shop
	59. Maniilaq Medical Center
	60. Maniilaq - Shop/Water Storage Tanks
	61. Maniilaq - Fitness Center

Elevation intervals on the map are derived from 2015 source data. Temporal changes, human or naturally induced, may have occurred that will cause the elevations depicted on these map figures to no longer represent actual surface conditions.

Please note the following disclosures/use limitations:

- These maps illustrate elevation and are not intended for use in the definition of flood zones. Flood levels are not perfectly flat and will not directly correspond to specific elevations.

- Vertical and horizontal accuracies vary by location.
- Best available data sets in Alaska are not always up-to-date. Examples: Houses or infrastructure may have moved since DCRA linework was completed, local engineering projects might raise a road or add a seawall, and/or beach and sand spits may have naturally changed shape.
- Colors are restricted to areas of known elevation. In some cases the best available elevation model does not cover the entire DCRA Community Map area.

Elevation Range

- Higher Elevation: 0.5 meter
- Lower Elevation: 2 meters

Color Key Available as Separate Sheet

Color indices shown to the left define relative vertical elevations. The vertical magnitude for each colored elevation range varies as shown (i.e. orange encompasses a 2-meter range of elevations that are the lowest elevations mapped). For up-to-date numerical elevation values associated with each colored elevation range, see key on a separate sheet MP 154 version 3 'Kotzebue Numerical Elevation Table'.
