

INFRASTRUCTURE-TRANSPORTATION/POINT DATA

This is a composite map developed from existing highway maps, U.S. Geological Survey topographic maps, and other sources. Point Data was primarily developed from existing maps and documents (natural areas used as airstrips were located by local pilots and National Park Service personnel). See the technical documentation available from the Alaskan Department of Natural Resources, Division of Geological and Geophysical Surveys for detailed descriptions of mapped features, compilation methods, and sources.

ROADS

1st letter	Roads Class
RS	State
RL	Local
2nd letter	Road Capacity
L	Light Duty
U	Unimproved
3rd letter	Road Surface
P	Paved
U	Unpaved
4th letter	State Highway number

EXAMPLE

RAILROADS

RRAB Abandoned Railroads

AIRPORTS

- ACOMM Community: Primary access point to small rural community.
- AD District: Secondary intrastate access points to regions of Alaska and to regional centers with populations over 1,000.
- ALCL Includes Local, Seaplane, Heliport, and Military and Coast Guard landing sites.
- AN Natural Area: Minimally improved natural areas or completely natural areas frequently used by bush aircraft. Additional natural area access can be obtained from the Alaskan Department of Fish and Game within the Alaska Habitat Management Guide for the Arctic Region.
- ANF Natural Area; Float Plane: This category had been used only when such access is primarily associated with mining activities.
- ARC Regional Center: Primary intrastate access point to regions of Alaska and to regional centers with populations over 1,000.
- AT Transportation: Primary access point to medium sized rural community.

OTHER POINT DATA

- ADQ Aqueducts
- CEM Cemetery
- ED Diesel Electric Generation Facilities
- HP Proposed or studied hydroelectric sites
- NFI Navigational Facilities (primarily lighthouses)

AIRPORT EXAMPLE

SURFACE TYPES

- ASP = Asphalt
- DRT = Dirt
- GRV = Gravel
- WAT = Water
- UNK = Unknown

MAGNETIC DECLINATION (1955) AT SOUTH EDGE OF MAP VARIES FROM 17°30' TO 19°30'

THIS REPORT HAS NOT BEEN READ BY THE DIRECTOR, HAS NOT RECEIVED OFFICIAL DGG'S PUBLICATION STATUS, AND SHOULD NOT BE QUOTED AS SUCH.
