This map has been completed using the best available information and is believed to be accurate; however, its preparation required many assumptions. Actual conditions during a tsunami may vary from those shown on the map and cannot be guaranteed. Areas transcribed and depicted on the map are subject to change due to geological, tectonic, and seismic processes. The map is not intended for use by the general public or for emergency management purposes. Use of this map is at your own risk. This map does not serve as a substitute for local flood or tsunami hazards. The map is prepared for public distribution only; further testing and modification may be required. This map should not be used as a substitute for local flood or tsunami hazards. This map is intended for use by professionals with the appropriate technical training. This map is for educational purposes only and is not intended for use in emergency management or for public distribution.
