

EXPLANATION

-  Limonite with some gypsum
 Magnetite bodies with some pyrite and calcite
 Tactite, mostly garnetite
 Andesite intrusives
 Quartz diorite intrusives
 Thin-bedded light-gray limestone
 Massive light-gray limestone
-  Pyrite vein showing dip
 Vertical pyrite vein
 Fracture or slip showing dip
 Vertical fracture or slip
 Observed contact
 Inferred contact
 Mine coordinates
 Raise above sill
 Raise below sill
 Raise through
 Diamond drill hole

Note: Levels are plotted with an east-west offset
