

FREE-AIR GRAVITY ANOMALY MAP OF THE EASTERN CHUKCHI  
AND SOUTHERN BEAUFORT SEAS

BY  
BYRON D. RUPPEL and A. GRAIG McHENDRIE

1976

POLAR STEREOGRAPHIC PROJECTION  
SCALE 1:2,000,000

The data were collected with a La Coste and Romberg sea gravity meter S-53, from the USCGC BURTON ISLAND, in 1972, 1973, and 1974. Land ties were located at Long Beach, California, and at Juneau, Alaska.

Navigation was determined by means of a satellite system. The anomaly shown on the map is drawn with respect to the Potsdam datum.

The assistance of the U.S. Coast Guard in providing the vessel, and of NARL for logistical support is gratefully acknowledged.
