  - Nichols and Perry, 1966, ESSA Monograph 3, Bathymetry of the Aleutian Arc, Alaska--Plate 4: Unalaska Island (scale 1:400,000), U.S. Department of Commerce, NOAA, National Ocean Survey (formerly CGGS).
  - Nichols and Perry, 1966, ESSA Monograph 3, Bathymetry of the Aleutian Arc, Alaska--Plate 5: Unalaska Island (scale 1:400,000), U.S. Department of Commerce, NOAA, National Ocean Survey (formerly CGGS).
  - Nichols and Perry, 1966, ESSA Monograph 3, Bathymetry of the Aleutian Arc, Alaska--Plate 6: Unimak Island (scale 1:400,000), U.S. Department of Commerce, NOAA, National Ocean Survey (formerly CGGS).
  - Pratt, R.M. and Walton, F., 1974, Bathymetric Map of the Bering Shelf, Geological Society of America, Boulder, CO.

NOTE: Spot depths above 55° N are based on trackline data from the U.S. Geological Survey 1976 geophysical cruise of the S.P. Lee (12-76-BS).

Albers conic equal-area projection based on standard parallels 55° and 65° N  
onshore and offshore contour interval: 500 meters with a 200 meter contour added offshore  
Spot depths in meters

## EQUAL-AREA BASE MAP OF THE BERING SEA Plate 4: Aleutian East

ALBERS EQUAL-AREA PROJECTION  
SCALE 1:1,000,000
